## Motif

## BOKARO STEEL PLANT

Started in the year 1965 Bokaro Steel Plant is one of the largest steel producing unit in the country under public undertaking. The plant situated in Bokaro Steel City provides ample opportunity to a large number of small scale industries in the district of Bokaro.

## FOREWORD

1. The District Census Handbook (DCHB) is an important publication of the Census Organization since 1951. It contains both Census and non Census data of urban and rural areas for each District. The Census data provide information on demographic and socio-economic characteristics of population at the lowest administrative unit i.e. of each Village and Town and ward of the District. The Primary Census Abstract (PCA) part of this publication contains Census data including data on household amenities collected during 1<sup>st</sup> phase of the Census i.e. House Listing and Housing Census. The non Census data presented in the DCHB is in the form of Village Directory and Town Directory contain information on various infrastructure facilities available in the village and town viz; education, medical, drinking water, communication and transport, post and telegraph, electricity, banking, and other miscellaneous facilities. Later on, the Telegraph Services were closed by the Government of India on 15<sup>th</sup>. July, 2013. The data of DCHB are of considerable importance in the context of planning and development at the grass-root level.

2. In the 1961 Census, DCHB provided a descriptive account of the District, administrative statistics, Census tables and Village and Town Directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to Village and Town Directory, Part-B to Village and Town PCA and Part-C comprised analytical report, administrative statistics, District Census tables and certain analytical tables based on PCA and amenity data in respect of Villages. The 1981 Census DCHB was published in two parts: Part-A contained Village and Town Directory and Part-B the PCA of Village and Town including the SCs and STs PCA up to Tahsil/Town levels. New features along with restructuring of the formats of Village and Town Directory were added. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent Village, the distance in broad ranges from the nearest place having such an amenity, was given.

3. The pattern of 1981 Census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 Census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 Census was the Community Development Block (CD Block) level presentation of Village Directory and PCA data instead of the traditional Tahsil/Taluk/PS level presentation.

4. As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a Village in addition to prescribed facilities of earlier Censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

5. The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. These newly added amenities are: Pre-Primary School, Engineering College, Medical College, Management Institute, Polytechnic, Non-formal Training Centre, Special School for Disabled, Community Health Centre, Veterinary Hospital, Mobile Health Clinic, Medical Practitioner with MBBS Degree, Medical Practitioner with no degree, Traditional Practitioner and faith Healer, Medicine Shop, Community Toilet, Rural Sanitary Mart or Sanitary Hardware Outlet in the Village, Community Bio- gas, Sub Post Office, Village Pin Code, Public Call Office, Mobile Phone Coverage, Internet Cafes/ Common Service Centre, Private Courier Facility, Auto/Modified Autos, Taxis and Vans, Tractors, Cycle-pulled Rickshaws, Carts driven by Animals, Village connected to National Highway, State Highway, Major District Road, and Other District Road, Availability of Water Bounded Macadam Roads in Village, ATM, Self-Help Group, Public Distribution System(PDS) Shop, Mandis/Regular Market, Weekly Haat, Agricultural Marketing Society, Nutritional Centers (ICDS), Anganwadi Centre, ASHA (Accredited Social Health Activist), Sports Field, Public Library, Public Reading Room, Assembly Polling station, Birth & Death Registration Office. In the Town Directory, seven Statements containing the details and the data of each Town have been presented viz.; (i)-Status and Growth History of Towns,(ii)- Physical Aspects and Location of Towns, (iii)-Civic and other Amenities, (iv)-Medical Facilities, (v)-Educational, Recreational & Cultural Facilities, (vi)- Industry & Banking, and (vii)-Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 Census as presented in earlier Census.

6. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

7. The Village and Town level amenities data have been collected, compiled and computerized under the supervision of Sh. Sunil Kumar Baranwal, Director of Census Operation, Jharkhand. The task of Planning, Designing and Co-ordination of this publication was carried out by Dr. Pratibha Kumari, Assistant Registrar General (SS) under the guidance & supervision of Dr. R.C.Sethi, Ex-Addl. RGI and Shri Deepak Rastogi present Addl.RGI. Shri A.P. Singh, Deputy Registrar General, (Map) provided the technical guidance in the preparation of maps. Shri A.K. Arora, Joint Director of Data Processing Division under the overall supervision of Shri M.S.Thapa, Addl. Director (EDP) provided full cooperation in preparation of record structure for digitization and validity checking of Village and Town Directory data and the programme for the generation of Village Directory and Town Directory including various analytical inset tables as well as Primary Census Abstract (PCA). The work of preparation of DCHB, 2011 Census has been monitored in the Social Studies Division. I am thankful to all of them and others who have contributed to bring out this publication in time.

## Preface

The history of the publication of District Census Handbooks goes back to the 1951 Census and since then these are printed after every Census because of their wide ranging utility. Census after Census much innovations/modifications have taken place in the District Census Handbooks in terms of coverage and contents of population data. This is the very useful and valuable district level publication brought out by the Census Organisation on behalf of the State Government. It, inter-alia, provides data/information on some of the basic demographic and socio-economic characteristics and availability of certain important civic amenities/facilities in each village and town of the respective districts. This publication has, proved to be of immense utility to the planners, administrators, academicians and researchers. It is hoped that this publication will serve the purpose of the ever increasing demand for the micro-level data in this era for planning development.

The present volume of the District Census Handbook Part –A (village and town directories amenities) and Part-B (Primary Census Abstract) of 2011 Census has been made more informative and exhaustive in terms of coverage and content. The content of Village Directory has been broadened by including a number of new amenities in addition to those of 2001. These newly added amenities are: Pre-Primary School, Engineering College, Medical College, Management Institute, Polytechnic, Non-formal Training Centre, Special School for Disabled, Community Health Centre, Veterinary Hospital, Mobile Health Clinic, Medical Practitioner with MBBS Degree, Medical Practitioner with no degree, Traditional Practitioner and faith Healer, Medicine Shop, Community Toilet, Rural Sanitary Mart or Sanitary Hardware Outlet in the Village, Community Bio- gas, Sub Post Office, Village Pin Code, Public Call Office, Mobile Phone Coverage, Internet Cafe/ Common Service Centre, Private Courier Facility, Auto/Modified Autos, Taxis and Vans, Tractors, Cycle-pulled Rickshaws, Carts driven by Animals, Village connected to National Highway, State Highway, Major District Road, and Other District Road, Availability of Water Bounded Macadam Roads in Village, ATM, Self-Help Group, Public Distribution System(PDS) Shop, Mandis/Regular Market, Weekly Haat, Agricultural Marketing Society, Nutritional Centers (ICDS), Anganwadi Centre, ASHA/SAHIYA in Jharkhand, Sports Field, Public Library, Public Reading Room, Assembly Polling station, Birth & Death Registration Office. In the Town Directory, seven Statements containing the details and the data of each Town have been presented viz.; (i)-Status and Growth History of Towns,(ii)- Physical Aspects and Location of Towns, (iii)-Civic and other Amenities, (iv)-Medical Facilities, (v)-Educational, Recreational & Cultural Facilities, (vi)- Industry & Banking, and (vii)- Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 Census as presented in earlier Census. The various basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements.

It is worthwhile to mention that the District Census Handbooks of the Census of India, 2011 are being made available in electronic format also in addition to printed volumes keeping in view the demand of data users.

The District Census Handbooks are brought out in two parts, viz. (i) part A containing the village and town directories and (ii) part B – village and town-wise primary Census Abstracts pertaining to general population. It also contains the District Primary Census Abstracts for Scheduled Castes and the Scheduled Tribes Population.

The village and town level amenity data have been collected through the Block Development Officers and the Vice Chairmen/Executive Officers of the Municipalities and Notified Area Committees who functioned as Charge Officer under the District/Sub-divisional level Officers.

The analytical note has been prepared on the basis of the inset tables generated from the computerized data of Village Directory, Town Directory and Village/Urban Primary Census Abstract. It takes note of the social, economic and demographic changes which have taken place in the districts during the decade. District and C.D. Block Maps containing useful information on many items have also been included in this volume.

This publication is a joint venture of the State Government and the Census organisation. We are grateful to the State Government agencies for their co-operation in collection of such a huge volume of data. We would like to make a special mention of the warm and whole hearted co-operation which was throughout extended by the Deputy Commissioner, the Sub-divisional Officers, the District Census Officers and the Block Development Officers.

In this office Shri Subhash Chandra Tripathi, Joint Director, Shri Priyatosh Amist, Deputy Director, Shri Dinesh Kumar, Deputy Director, Dr. Satyendra Kumar Gupta, Assistant Director, Dr. Bhim Raj Hansdah, Assistant Director and Shri Sant Ram, Assistant Director supervised the project at different stages. In this voluminous job valuable assistance was rendered by Shri Pradeep Kumar, Ram Bhaskar Dwivedi, Manoj Kumar and Birendra Prasad Singh, Statistical Investigators Grade-II, who were responsible for supervision from beginning to end under guidance of Shri Sant Ram, Assistant Director. Dr. Bhim Raj Hansdah, Assistant Director has also been associated to monitor the digitization, scrutiny and validity work of Village Directory and Town Directory data. Shri Pradeep Kumar, Ram Bhaskar Dwivedi, Manoj Kumar and Birendra Prasad Singh, Statistical Investigators Grade-II, prepared the analytical notes on inset tables based on the data of Village Directory, Town Directory and Primary Census Abstracts under the guidance of Shri Priyatosh Amist, Deputy Director, Dr. Satyendra Kumar Gupta, Assistant Director, Dr. Bhim Raj Hansdah, Assistant Director and Shri Sant Ram, Assistant Director as teams were formed for validity and final preparation of District Census Hand Book of Census of India 2011 and over all monitoring work was under the guidance of Shri Priyatosh Amist, Deputy Director under the supervision of Dr. Prathiba Kumari, Assistant Registrar General (SS), India. Districts and C.D. Blocks Maps were prepared in Map Section under the supervision of Sri Mukut Guria Research officer (Map) with help of Sri Jitendra Saini, Geographer and Sri Indra Kant Mishra Sr. Drawing Assistant. Sri Niraj Kumar Sahu and Sri Tanwir Anjum, Compilers typed the manuscript and prepared the tables.

Printing In-charge of RGI and DCO helped in getting the volume printed in-house.

This Directorate is highly indebted to Sri C. Chandramouli, Registrar General and Census Commissioner, India under whose guidance it has been rare privilege to strive for results. We are equally indebted to Dr. Prathiba Kumari, Assistant Registrar General (SS) for spontaneous help and encouragement at different stages of the work of this project with guidance. We are also thankful to Sri M.S. Thapa, Additional. Director, Sri A.K. Arora, Joint Director and Sri Ramesh Kumar, Deputy Director of EDP Division, who scrutinized the manuscript and database of PCA data as well as village and town directory and guided for release of DCHB Part-A & B in electronic form.

## HISTORY AND SCOPE OF THE DISTRICT CENSUS HANDBOOK

The need of data at the grass root level for the administrative and planning purposes at sub micro level as well as academic studies prompted the innovation of District Census Handbook. District Census Handbook is a unique publication from the Census organization which provides most authentic details of census and non-census information from village and town level to district level. The District Census Handbook was firstly introduced during the 1951 Census. It contains both census and non census data of urban as well as rural areas for each district. The census data contain several demographic and socio-economic characteristics of the lowest administrative unit i.e. of each village and town and ward of the district. The non census data comprise of data on availability of various civic amenities and infrastructural facilities etc. at the town and village level which constitute Village Directory and Town Directory part of the DCHB. The data of DCHB are of considerable importance in the context of planning and development at grass-root level.

In 1961 census DCHB provided a descriptive account of the district, administrative statistics, census tables and village and town directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was published in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features along with restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given.

The pattern of 1981 census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD Block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation.

As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a village in addition to prescribed facilities of earlier

censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. In the Town Directory, seven Statements containing the details and the data of each town have been presented viz.; (i)-Status and Growth History of towns,(ii)- Physical Aspects and Location of Towns, (iii)-Civic and other Amenities, (iv)-Medical Facilities, (v)-Educational, Recreational & Cultural Facilities, (vi)- Industry & Banking, and (vii)- Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 census as presented in earlier census. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

-----

## **Brief history of the District**

This district of Bokaro was created on 1<sup>st</sup> April, 1991 by taking out Chas and Chandankiyari C.D. Blocks of Dhanbad district and the entire Bermo Subdivision of Giridih district and then merging them to form a new district. Bokaro district is bounded on the east by Dhanbad district and some portion of West Bengal State, on the west by Ramgarh district, on the south by Purulia district of West Bengal and on the north by parts of Giridih, Hazaribag and Dhanbad districts. The district extends between 23°26" to 23°57" north latitude and 85°34" to 86°26" east latitude. The district is located at an elevation of 200-546 m. from mean sea level.

The Settlement Report for Manbhum, 1928 and the District Gazetteer for Dhanbad, 1964 are the sources available to trace some historical background of newly created district of Bokaro. As a matter of fact, not much information is available for Bokaro district exclusively.

The early history of the greater part of the area is difficult to trace, as the present district of Bokaro forms only a small and insignificant part of Manbhum. In the Settlement Report of Manbhum, It has been stated that no rock inscription, no copper plates or old coins were discovered in course of the survey and settlement operations. The oldest authentic documents produced were all on paper and they are barely a hundred years old.

Earlier, district of Bokaro, which till 1991 Census was part of Dhanbad district, was in turn, part of the old district of Manbhum. Manbhum derived its name from Raja Man Singh who got this territory as a gift from Emperor Akbar. Later on the extremely vast and far-flung district of Manbhum, got divided into Birbhum, Manbhum and Singhbhum. The District of Dhanbad was created on 24.10.1956 on the recommendation of the State Reconstitution Commission. The then district of Dhanbad consisted of two subdivisions, viz., Dhanbad Sadar & Baghmara.

On .01.04.1991 the Baghmara Subdivision, known as Chas Subdivision, became part and parcel of Bokaro district.

The area now forming part of Bokaro district was inhabited primarily by the people of Kolar race.

The earliest civilization in the area was that of Jains in around 600 B.C. The Jain domination was superseded by Brahmins around 7<sup>th</sup> century A.D. as is evident from the travel account of Hiuen Tsang which makes a mention of powerful kingdom ruled by Sasanka who was a persecutor of Buddhists. The Brahminical civilization was at its prime in the 10<sup>th</sup> century A.D. and was destroyed completely thereafter by the Bhumij and Mundari tribe.

During Akbar's time, Raja Man Singh led his troops from Bhagalpur to Midnapur through Jharkhand area and he might have passed through the areas covered by Bokaro district.

## **British Period**

The old district of Manbhum (consisting of the present Bokaro district) was acquired by the British in 1765. During the British period a series of military operation brought the petty zamindars under control. The permanent settlement was effected in this area in 1796. In 1805 a new district named Jungle Mahal was constituted into a separate magisterial charge with headquarters at Bankura. In 1833 the district of Jungle Mahal was broken up and a new district called Manbhum was constituted, later on in 1838 Purulia was fixed as the headquarter of Manbhum district.

In fact, Bokaro, the industrial area of prominence gained importance and won the famous place in the map of India with decision of Govt. of India in the early 1960's to establish modern public Sector Steel Plant with the collaboration of the Soviet Russia. It was in 1966 that Smt. Indira Gandhi, the late Prime Minister laid the foundation stone of what today is famous as Bokaro Steel Plant. Again in early 1990's a new horizon had opened with the identification of enormous source of Methane gas in the Chandankiyari area by the ONGC. It is reported that the ONGC is planning to establish an enormous Gas Plant in the region, which will be greater in size and importance than the present Bokaro Steel Plant.

As already mentioned earlier Bokaro district came into existence after 1991 Census. Presently Bokaro district has 2 subdivisions, 8 C.D. Block, 16 Towns (2 statutory and 14 census towns), 646 Villages (616 inhabited & 30 uninhabited). The geographical area of the district (provisional) is 2,860.82 sq.km<sup>2</sup>. In terms of area Bokaro district ranks 8<sup>th</sup> as compared to other districts and it accounts for 3.59 % of the geographical area of Jharkhand State.

## Administrative setup

The district of Bokaro possesses two subdivision, viz., Chas and Bermo, 9 C.D. Blocks and two statutory town and twenty five census towns. The district is in North Chotanagpur division which is in turn, under Jharkhand state (which has five divisions, e.g., North Chotanagpur, South Chotanagpur, Santhal Pargana, Palamu and Kolhan and was came out from erstwhile Bihar state on 15<sup>th</sup> November, 2000).

The administrative units of the district are as below:

| <u>Name of Sub-Division</u> | <u>Name of C.D. Blocks</u> | <u>Name of Town with Civic status</u> |
|-----------------------------|----------------------------|---------------------------------------|
| 1. Chas                     | 1) Nawadih                 | 1) Bokaro Steel City (CT)             |
|                             | 2) Chandrapura             | 2) Chas ( Nagar Parishad)             |
|                             | 3) Bermo                   | 3) Bhandra(CT)                        |
|                             | 4) Gumia                   | 4) Narra(CT)                          |
|                             | 5) Peterwar                | 5) Telo(CT)                           |

## **Section - I**

# **Primary Census Abstract (PCA)**

## **Brief Note on Primary Census Abstract**

### **Introduction:**

The Indian Census has the reputation of being one of the best in the world. The first Census in India was conducted in the year 1872. This was conducted at different points of time in different parts of the country. In 1881 a Census was taken for the entire country simultaneously. Since then, Census has been conducted every ten years, without a break. Thus, the Census of India 2011 was the fifteenth in this unbroken series since 1872, the seventh after independence and the second census of the third millennium and twenty first century. The census has been uninterruptedly continued despite several adversities like wars, epidemics, natural calamities, political unrest, etc.

The Census of India is conducted under the provisions of the Census Act 1948 and the Census Rules, 1990. In Censuses until 1931, a synchronous de-facto method was adopted wherein the Census was conducted throughout the country on a single night. This being a very costly affair and involved the deployment of very large force at one point of time was given up in 1941. Since then the same methodology has been followed in all the Censuses. It is a gigantic operation and considered to be the single largest, complex, peace time administrative exercise in the world.

The Census Operation in India is carried out in two distinct but inter connected phases - the House listing and Housing Census followed by the Population Enumeration. During the first phase of Census 2011 i.e., House listing and Housing Census, the buildings, census houses and households were identified and systematically listed in the House Listing and Housing Census Schedule during the period April to September, 2010 in different States/Union Territories. Apart from listing of houses, some useful data on the amenities available to the households was also collected for assessing condition of human settlements, housing deficits etc.

Censuses prior to Census 2001 had the system of collecting the information through Individual Slip which was a key schedule for every individual. The information collected through slip was then compiled for a household. Some information was also collected in addition to this for the household. During 2001 Census a comprehensive Household Schedule was adopted replacing the individual slip concept. In 2011 Census also similar household schedule was used for canvassing. The scope of demographic, socio-economic parameters has been widened in every census.

### **2. Population Enumeration - Census 2011:**

The field work of the second phase i.e. Population Enumeration was carried out during February-March, 2011. One of the essential features of Population Enumeration in the second phase was that each person was enumerated and her/his individual particulars were collected at a well-defined point of time.

The Census moment and the reference date for the Census of India 2011 was 00:00 hours of 1st March, 2011. The enumeration was conducted from 9th February to 28th February, 2011 alongwith a revisional round from 1st March, 2011 to 5th March, 2011 synchronously all over the country except for few specific areas of the Jammu & Kashmir, Himachal Pradesh and Uttarakhand states that remain snowbound in February. In these locations the population enumeration was done from 11th September, 2010 to 30th September, 2010 along with a revisional round from 1st October, 2010 to 5th October, 2010. The reference date for the census in snow bound non-synchronous areas of these states was 00.00 hours of the first day of October, 2010. In addition to the coverage during House listing& Housing Census, the enumeration of the Houseless population was carried out on the night of 28th February, 2011, as has been the usual practice. For the purpose of Census, certain areas where the access of the civilian enumerators was not permissible due to security reasons termed as 'Special Charges' such as the Defence and strictly Military/Para-Military areas, including operational areas were also covered. Such areas were not covered during the House listing& Housing Census. In addition to the defence/para-military areas, Special Charges also included certain factory areas, certain colonies, sensitive areas, scientific establishments, etc. These also formed Special Charges as these were not accessible by the usual census enumerator.

### **3. Quality Assurance:**

A Task Force for Quality Assurance (TFQA) functioned under the chairmanship of the RG & CCI. Experienced officers of the different divisions of the organization i.e. Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division comprised the TFQA. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The main objective of constituting the TFQA was to subject the data to stringent validation checks and ensure its quality before release as it was expedient to be satisfied itself about the quality of data before putting the same in public domain.

The Directors and their senior officers were involved at all levels with respect to the quality and the coverage of their States/UTs. The TFQA intensively scrutinized coverage and content parameters including edit and imputation logic. The most important aspect of the data quality was to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, especially for small area population statistics. The content was scrutinized mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception was looked at to understand both the existing and the new emerging trends of population distribution and characteristics. A very comprehensive check and edit mechanism was put in

place to objectively examine the preliminary Census 2011 Population Enumeration results and finally clear them for use. The population data was cleared only after the full possible satisfaction of the TFQA.

The entire work relating to the data validation and scrutiny was completed by all the States/Union territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

#### **4. Primary Census Abstract:**

The Primary Census Abstract which is an important publication of 2011 Census gives basic information on Area, Total Number of Households, Total Population, Scheduled Castes, Scheduled Tribes Population, Population in the age group 0-6, Literates, Main Workers and Marginal Workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural Labourers, (iii) Household Industry Workers, and (iv) Other Workers and also Non-Workers. The characteristics of the Total Population include Scheduled Castes, Scheduled Tribes, Institutional and Houseless Population and are presented by sex and rural-urban residence.

In 1981 census main workers were presented into four categories. As regards 1991 Census, the nine-fold industrial classification of main workers has been given in the Primary Census Abstract. One of the important features of the Primary Census Abstract of 1991 Census was the presentation of population of the age group 0-6 which is continued in 2001 and 2011 Census. All the children of age 6 years or less have been treated as illiterate even if the child is going to a school and may have picked up reading and writing. This will help the data users in better analysis and understanding of the literacy data as the literacy rate is calculated with 7 years and above population and it is referred as effective literacy rate. In 2001 and 2011 census four categories of main workers have been given in the Primary Census Abstract.

#### **5. Level of Presentation of PCA data in District Census Handbooks:**

The format of Primary Census Abstract (PCA) adopted in the DCHB of 2001 Census has been continued for 2011 Census as the data on four categories of works have been presented similar to 2001 census. The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts in DCHB is as under:

1. District Primary Census Abstract - District/C.D. Block/Town.
2. Primary Census Abstract for Scheduled Castes- District/C.D. Block/Town.
3. Primary Census Abstract for Scheduled Tribes - District/C.D. Block/Town.
4. Village Primary Census Abstract - C.D. Block/Village wise.
5. Urban Primary Census Abstract- Town/Ward level.

The PCA Data for villages was presented C.D. Block wise for the first time in 1991 Census. This practice is continued in 2001 and 2011 Census. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

## **6. Area Figures:**

The area figures supplied by local revenue authorities of the district in respect of tahsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the C.D. Block are the total of the village areas coming under each C.D. Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level.
