FOREWORD

The District Census Handbook (DCHB) is an important publication of the Census Organization since 1951. It contains both Census and non Census data of urban and rural areas for each District. The Census data provide information on demographic and socio-economic characteristics of population at the lowest administrative unit i.e. of each Village and Town and ward of the District. The Primary Census Abstract (PCA) part of this publication contains Census data including data on household amenities collected during 1st.phase of the Census i.e. House Listing and Housing Census. The non Census data presented in the DCHB is in the form of Village Directory and Town Directory contain information on various infrastructure facilities available in the village and town viz; education, medical, drinking water, communication and transport, post and telegraph, electricity, banking, and other miscellaneous facilities. Later on, the Telegraph Services were closed by the Government of India on 15th. July, 2013. The data of DCHB are of considerable importance in the context of planning and development at the grass-root level.

2. In the 1961 Census, DCHB provided a descriptive account of the District, administrative statistics, Census tables and Village and Town Directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to Village and Town Directory, Part-B to Village and Town PCA and Part-C comprised analytical report, administrative statistics, District Census tables and certain analytical tables based on PCA and amenity data in respect of Villages. The 1981 Census DCHB was published in two parts: Part-A contained Village and Town Directory and Part-B the PCA of Village and Town including the SCs and STs PCA up to Tahsil/Town levels. New features along with restructuring of the formats of Village and Town Directory were added. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent Village, the distance in broad ranges from the nearest place having such an amenity, was given.

3. The pattern of 1981 Census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 Census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 Census was the Community Development Block (CD Block) level presentation of Village Directory and PCA data instead of the traditional Tahsil/Taluk/PS level presentation.

4. As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and `most important commodity' manufactured in a Village in addition to prescribed facilities of earlier Censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

5. The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. These newly added amenities are: Pre-Primary School, Engineering College, Medical College, Management Institute, Polytechnic, Non-formal Training Centre, Special School for Disabled, Community Health Centre, Veterinary Hospital, Mobile Health Clinic, Medical Practitioner with MBBS Degree, Medical Practitioner with no degree, Traditional Practitioner and faith Healer, Medicine Shop, Community Toilet, Rural Sanitary Mart or Sanitary Hardware Outlet in the Village, Community Bio- gas, Sub Post Office, Village Pin Code, Public Call Office, Mobile Phone Coverage, Internet Cafes/ Common Service Centre, Private Courier Facility, Auto/Modified Autos, Taxis and Vans, Tractors, Cycle-pulled Rickshaws, Carts driven by Animals, Village connected to National Highway, State Highway, Major District Road, and Other District Road, Availability of Water Bounded Macadam Roads in Village, ATM, Self-Help Group, Public Distribution System(PDS) Shop, Mandis/Regular Market, Weekly Haat, Agricultural Marketing Society, Nutritional Centers (ICDS), Anganwadi Centre, ASHA (Accredited Social Health Activist), Sports Field, Public Library, Public Reading Room, Assembly Polling station, Birth & Death Registration Office. In the Town Directory, seven Statements containing the details and the data of each Town have been presented viz.; (i)-Status and Growth History of Towns,(ii)- Physical Aspects and Location of Towns, (iii)-Civic and other Amenities, (iv)-Medical Facilities, (v)-Educational, Recreational & Cultural Facilities, (vi)- Industry & Banking, and (vii)-Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 Census as presented in earlier Census.

6. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

7. The Village and Town level amenities data have been collected, compiled and computerized under the supervision of Sri Sunil Kumar Barnwal, Director of Census Operation, Jharkhand. The task of Planning, Designing and Co-ordination of this publication was carried out by Dr. Pratibha Kumari, Assistant Registrar General (SS) under the guidance & supervision of Dr. R.C.Sethi, Ex-Addl. RGI and Shri Deepak Rastogi present Addl.RGI. Shri A.P. Singh, Deputy Registrar General, (Map) provided

the technical guidance in the preparation of maps. Shri A.K. Arora, Joint Director of Data Processing Division under the overall supervision of Shri M.S.Thapa, Addl. Director (EDP) provided full cooperation in preparation of record structure for digitization and validity checking of Village and Town Directory data and the programme for the generation of Village Directory and Town Directory including various analytical inset tables as well as Primary Census Abstract (PCA). The work of preparation of DCHB, 2011 Census has been monitored in the Social Studies Division**.** I am thankful to all of them and others who have contributed to bring out this publication in time.

Preface

The history of the publication of District Census Handbooks goes back to the 1951 Census and since then these are printed after every Census because of their wide ranging utility. Census after Census much innovations/modifications have taken place in the District Census Handbooks in terms of coverage and contents of population data. This is the very useful and valuable district level publication brought out by the Census Organisation on behalf of the State Government. It, inter-alia, provides data/information on some of the basic demographic and socio-economic characteristics and availability of certain important civic amenities/facilities in each village and town of the respective districts. This publication has, proved to be of immense utility to the planners, administrators, academicians and researchers. It is hoped that this publication will serve the purpose of the ever increasing demand for the micro-level data in this era for planning development.

The present volume of the District Census Handbook Part –A (village and town directories amenities**)** and Part-B (Primary Census Abstract) of 2011 Census has been made more informative and exhaustive in terms of coverage and content. The content of Village Directory has been broadened by including a number of new amenities in addition to those of 2001. These newly added amenities are: Pre-Primary School, Engineering College, Medical College, Management Institute, Polytechnic, Non-formal Training Centre, Special School for Disabled, Community Health Centre, Veterinary Hospital, Mobile Health Clinic, Medical Practitioner with MBBS Degree, Medical Practitioner with no degree, Traditional Practitioner and faith Healer, Medicine Shop, Community Toilet, Rural Sanitary Mart or Sanitary Hardware Outlet in the Village, Community Bio- gas, Sub Post Office, Village Pin Code, Public Call Office, Mobile Phone Coverage, Internet Cafe/ Common Service Centre, Private Courier Facility, Auto/Modified Autos, Taxis and Vans, Tractors, Cycle-pulled Rickshaws, Carts driven by Animals, Village connected to National Highway, State Highway, Major District Road, and Other District Road, Availability of Water Bounded Macadam Roads in Village, ATM, Self-Help Group, Public Distribution System(PDS) Shop, Mandis/Regular Market, Weekly Haat, Agricultural Marketing Society, Nutritional Centers (ICDS), Anganwadi Centre, ASHA/SAHIYA in Jharkhand, Sports Field, Public Library, Public Reading Room, Assembly Polling station, Birth & Death Registration Office. In the Town Directory, seven Statements containing the details and the data of each Town have been presented viz.; (i)-Status and Growth History of Towns,(ii)- Physical Aspects and Location of Towns, (iii)-Civic and other Amenities, (iv)-Medical Facilities, (v)-Educational, Recreational & Cultural Facilities, (vi)- Industry & Banking, and (vii)- Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 Census as presented in earlier Census. The various basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements.

It is worthwhile to mention that the District Census Handbooks of the Census of India, 2011 are being made available in electronic format also in addition to printed volumes keeping in view the demand of data users.

The District Census Handbooks are brought out in two parts, viz. (i) part A containing the village and town directories and (ii) part B – village and town-wise primary Census Abstracts pertaining to general population. It also contains the District Primary Census Abstracts for Scheduled Castes and the Scheduled Tribes Population.

The village and town level amenity data have been collected through the Block Development Officers and the Vice Chairmen/Executive Officers of the Municipalities and Notified Area Committees who functioned as Charge Officer under the District/Sub-divisional level Officers.

The analytical note has been prepared on the basis of the inset tables generated from the computerized data of Village Directory, Town Directory and Village/Urban Primary Census Abstract. It takes note of the social, economic and demographic changes which have taken place in the districts during the decade. District and C.D. Block Maps containing useful information on many items have also been included in this volume.

This publication is a joint venture of the State Government and the Census organisation. We are grateful to the State Government agencies for their co-operation in collection of such a huge volume of data. We would like to make a special mention of the warm and whole hearted co-operation which was throughout extended by the Deputy Commissioner, the Sub-divisional Officers, the District Census Officers and the Block Development Officers.

In this office Shri Subhash Chandra Tripathi, Joint Director, Shri Priyatosh Amist, Deputy Director, Shri Dinesh Kumar, Deputy Director, Dr. Satyendra Kumar Gupta, Assistant Director, Dr. Bhim Raj Hansdah, Assistant Director and Shri Sant Ram, Assistant Director supervised the project at different stages. In this voluminous job valuable assistance was rendered by Shri Pradeep Kumar, Ram Bhaskar Dwivedi, Manoj Kumar and Birendra Prasad Singh, Statistical Investigators Grade-II, who were responsible for supervision from beginning to end under guidance of Shri Sant Ram, Assistant Director. Dr. Bhim Raj Hansdah, Assistant Director has also been associated to monitor the digitization, scrutiny and validity work of Village Directory and Town Directory data. Shri Pradeep Kumar, Ram Bhaskar Dwivedi, Manoj Kumar and Birendra Prasad Singh, Statistical Investigators Grade-II, prepared the analytical notes on inset tables based on the data of Village Directory, Town Directory and Primary Census Abstracts under the guidance of Shri Priyatosh Amist, Deputy Director, Dr. Satyendra Kumar Gupta, Assistant Director, Dr. Bhim Raj Hansdah, Assistant Director and Shri Sant Ram, Assistant Director as teams were formed for validity and final preparation of District Census Hand Book of Census of India 2011 and over all monitoring work was under the guidance of Shri Priyatosh Amist, Deputy Director under the supervision of Dr. Prathiba Kumari, Assistant Registrar General (SS), India. Districts and C.D. Blocks Maps were prepared in Map Section under the supervision of Sri Mukut Guria Research officer (Map) with help of Sri Jitendra Saini, Geographer and Sri Indra Kant Mishra Sr. Drawing Assistant. Sri Niraj Kumar Sahu and Sri Tanwir Anjum, Compilers typed the manuscript and prepared the tables. Printing In-charge of RGI and DCO helped in getting the volume printed in-house.

This Directorate is highly indebted to Sri C. Chandramouli, Registrar General and Census Commissioner, India under whose guidance it has been rare privilege to strive for results. We are equally indebted to Dr. Prathiba Kumari, Assistant Registrar General (SS) for spontaneous help and encouragement at different stages of the work of this project with guidance. We are also thankful to Sri M.S. Thapa, Additional. Director, Sri A.K. Arora, Joint Director and Sri Ramesh Kumar, Deputy Director of EDP Division, who scrutinized the manuscript and database of PCA data as well as village and town directory and guided for release of DCHB Part-A & B in electronic form.

ANALYTICAL NOTE

DISTRICT BOKARO

HISTORY AND SCOPE OF THE DISTRITCT CENSUS HANDBOOK

The need of data at the grass root level for the administrative and planning purposes at sub micro level as well as academic studies prompted the innovation of District Census Handbook. District Census Handbook is a unique publication from the Census organization which provides most authentic details of census and non-census information from village and town level to district level. The District Census Handbook was firstly introduced during the 1951 Census. It contains both census and non census data of urban as well as rural areas for each district. The census data contain several demographic and socio-economic characteristics of the lowest administrative unit i.e. of each village and town and ward of the district. The non census data comprise of data on availability of various civic amenities and infrastructural facilities etc. at the town and village level which constitute Village Directory and Town Directory part of the DCHB. The data of DCHB are of considerable importance in the context of planning and development at grass-root level.

In 1961 census DCHB provided a descriptive account of the district, administrative statistics, census tables and village and town directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was published in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features along with restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given.

The pattern of 1981 census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD Block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation.

As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and `most important commodity' manufactured in a village in addition to prescribed facilities of earlier censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. In the Town Directory,

seven Statements containing the details and the data of each town have been presented viz.; (i)-Status and Growth History of towns,(ii)- Physical Aspects and Location of Towns, (iii)-Civic and other Amenities, (iv)-Medical Facilities, (v)-Educational, Recreational & Cultural Facilities, (vi)- Industry & Banking, and (vii)- Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 census as presented in earlier census. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

Brief history of the District

This district of Bokaro was created on 1st April, 1991 by taking out Chas and Chandankiyari C.D. Blocks of Dhanbad district and the entire Bermo Subdivision of Giridih district and then merging them to form a new district. Bokaro district is bounded on the east by Dhanbad district and some portion of West Bengal State, on the west by Ramgarh district, on the south by Purulia district of West Bengal and on the north by parts of Giridih, Hazaribag and Dhanbad districts. The district extends between 23°26" to 23°57" north latitude and 85°34" to 86°26" east latitude. The district is located at an elevation of 200-546 m. from mean sea level.

The Settlement Report for Manbhum, 1928 and the District Gazetteer for Dhanbad, 1964 are the sources available to trace some historical background of newly created district of Bokaro. As a matter of fact, not much information is available for Bokaro district exclusively.

The early history of the greater part of the area is difficult to trace, as the present district of Bokaro forms only a small and insignificant part of Manbhum. In the Settlement Report of Manbhum, It has been stated that no rock inscription, no copper plates or old coins were discovered in course of the survey and settlement operations. The oldest authentic documents produced were all on paper and they are barely a hundred years old.

Earlier, district of Bokaro, which till 1991 Census was part of Dhanbad district, was in turn, part of the old district of Manbhum. Manbhum derived its name from Raja Man Singh who got this territory as a gift from Emperor Akbar. Later on the extremely vast and far-flung district of Manbhum, got divided into Birbhum, Manbhum and Singhbhum. The District of Dhanbad was created on 24.10.1956 on the recommendation of the State Reconstitution Commission. The then district of Dhanbad consisted of two subdivisions, viz., Dhanbad Sadar & Baghmara.

On .01.04.1991 the Baghmara Subdivision, known as Chas Subdividion, became part and parcel of Bokaro district.

The area now forming part of Bokaro district was inhabited primarily by the people of Kolar race.

The earliest civilization in the area was that of Jains in around 600 B.C. The Jain domination was superseded by Brahamins around 7th century A.D. as is evident from the travel account of Hiuen Tsang which makes a mention of powerful kingdom ruled by Sasanka who was a persecutor of Buddhists. The Brahamical civilization was at its prime in the 10th century A.D. and was destroyed completely thereafter by the Bhumij and Mundari tribe.

During Akbar's time, Raja Man Singh led his troops from Bhagalpur to Midnapur through Jharkhand area and he might have passed through the areas covered by Bokaro district.

British Period

The old district of Manbhum (consisting of the present Bokaro district) was acquired by the British in 1765. During the British period a series of military operation brought the petty zamindars under control. The permanent settlement was effected in this area in 1796. In 1805 a new district named Jungle Mahal was constituted into a separate magisterial charge with headquarters at Bankura. In 1833 the district of Jungle Mahal was broken up and a new district called Manbhum was constituted, later on in 1838 Purulia was fixed as the headquarter of Manbhum district.

In fact, Bokaro, the industrial area of prominence gained importance and won the famous place in the map of India with decision of Govt. of India in the early 1960's to establish modern public Sector Steel Plant with the collaboration of the Soviet Russia. It was in 1966 that Smt. Indira Gandhi, the late Prime

Minister laid the foundation stone of what today is famous as Bokaro Steel Plant. Again in early 1990's a new horizon had opened with the identification of enormous source of Methane gas in the Chandankiyari area by the ONGC. It is reported that the ONGC is planning to establish an enormous Gas Plant in the region, which will be greater in size and importance than the present Bokaro Steel Plant.

As already mentioned earlier Bokaro district came into existence after 1991 Census. Presently Bokaro district has 2 subdivisions, 8 C.D. Block, 16 Towns (2 statutory and 14 census towns), 646 Villages (616 inhabitated & 30 uninhabitated). The geographical area of the district (provisional) is 2,860.82 sq.km2. In terms of area Bokaro district ranks 8th as compared to other districts and it accounts for 3.59 % of the geographical area of Jharkhand State.

Administrative setup

The district of Bokaro possesses two subdivision, viz., Chas and Bermo, 9 C.D. Blocks and two statuary town and twenty five census towns. The district is in North Chotanagpur division which is in turn, under Jharkhand state (which has five divisions, e.g., North Chotanagpur, South Chotanagpur, Santhal Pargana, Palamu and Kolhan and was came out from erstwhile Bihar state on 15th November,2000).

The administrative units of the district are as below:

Name of Sub-Division	Name of C.D. Blocks	Name of Town with Civic status
1. Chas.	1) Nawadih	1) Bokaro Steel City (CT)
	2) Chandrapura	2) Chas (Nagar Parishad)
	3) Bermo	3) Bhandra(CT)
	4) Gumia	4)Narra(CT)
	5) Peterwar	5)Telo(CT)
	6) Kasmar	6) Chandrapura(CT)
	7) Jaridih	7)Phushro (Nagar Parishad)
	8) Chas	8)Bokaro(CT)
	9) Chandankiyari	9) Khurpania, (CT)
		10)Bermo, (CT)
		11)JaridihBazar, (CT)
		12)Termi, (CT)
		13) Bursera, (CT)
		14)Sijua, (CT)
		15)Dugda, (CT)
		16)Gumia, (CT)
		17) Hasir, (CT)
		18)Lalpania, (CT)
		19) Saram, (CT)
		20)Tenudam, (CT)
		21) Tenu, (CT)
		22) Banddih, (CT)
		23)Jena, (CT)
		24)Tanr Balidih, (CT)
		25)Bandhgora, (CT)
		26) Amlabad (CT) and
		27)Bhujudih (CT).

There are total no. of 635 villages in the Bokaro district.

The district administration is headed by the Deputy Commissioner. He belongs to I.A.S. cadre. He is assisted by a lot of officers mostly belonging to officials of Jharkhand Public Service Commission. Police Administration is looked after by the superintendent of the police (S.P.). He is also assisted by no. of officers like Assistant Superintendents of Police, Deputy superintendent of Police, Inspector of Police, etc.

Physical features

The district extends between 23°26”-23°57” north latitude and 85°34”-86°26” east latitude. Bokaro uplands(in the western part), Bokaro-Chas uplands (middle part), Damodar-Barakar Basin(eastern part), are the Physical Divisions of which Bokaro -Chas uplands is the major physical division in the district. The region forms the south-western portion of the district. It extends from the north to the south. River Damodar forms its northen boundary. The region is bounded by the state of West Bengal in the south, Damodar-Barakar Basin in the east and by Giridih district in the west. It comprises the major portion of Chas and small portion of Chandankiyari C.D. Blocks. The entire region has undulating surface. The height varies between 200 m to 282 m. The general slope of the region is from the west to the east. Damodar is the main river which flows along with its tributaries like Garga and Parga in this tract. Minor rivers which flow in the district are Bokaro, Kunar, Khusa and Uri. The other river of the district is Gobei, which flows through Chandankiyari block area and konar in Gomia block. Scattered patches of forest are found all over the region. Its geology is related to Chotanagpur gneiss. Soil is Ustalfs-Aqualfs-Ochrepts. The average annual rainfall is 1,291.2 mm. Paddy, millets and pulses are the main crops of the region.

The is located at an elevation of 200-546 m. from mean sea level. The highest peak are Dhamdharwatoli (740 m.), Lugu pahar (1070 m.), Chainpur (700m.), Bhaski (793 m.). All these peaks are found in the western part of the district. Ravines are found in the western part of the district having rugged topography. Major portion of the district is comprised of Chotanagpur Gneiss and small patches of Goudwana formations with thick layers of coal.

The Physical Data:

Climate	:	Sub tropical
Annual Rain fall	:	Min. 157 cms./Max. 195 cms.
Temperature	:	Min. 2000C winter/Max – 450 summer
Wind direction	:	South west to North east

The natural Division:

The district may be categorized into three formations

1. Central plateau
2. Lower Plateau
3. Damodar, Garga and Tenughat Valley

The Climate and Rainfall:

The district falling in tropical monsoon region has broadly three pronounced seasons.

1. Winter season October to February
2. Summer Season March To May
3. Rainy Season June to September.

Land use pattern:

The land of district is mostly mono-cropped and rain-fed. The district is mostly covered by hills and forest. The soil is generally laterite and sandy.

On the other hand only 39.21% of the total area of the district is presently under agriculture and under horticulture area is about 9.09% of cultivable land.

Main crops

Rice & Maize are the main agricultural crops while Bajara, Wheat, Pulses and vegetables are other crops grown. A marginal portion of non forest, G.M. land, and Raiyati land is under horticulture and social forestry.

Socio – Economic condition:

The district of Bokaro is mostly hilly and soil is generally shallow - infertile and murmi with pockets and traces of sandy loam and of sharply varying depth.

Hardly 8% of the agricultural land in the district is irrigated, the major part of the agriculture, solely depends on the monsoon precipitation. In most of the land, only marginal and sub-marginal farming is possible.

Mines & Minerals:

The Bermo-Phusro Coal field area is entirely situated in this district and is rich for coal. A part from coal other minerals for extraction are Stone, Stone Boulders. Production of Stone Chip is also done.

Irrigation:

Since the topography of the district is hilly there is not much scope for the exploitation of surface water. The other means of irrigation left are exploitation of ground water taking resource to lift irrigation. Tank irrigation is quite popular in the district. After independence several schemes were set up by D.V.C. and district authorities and many medium river irrigation schemes such as open boring, tube wells and hand pumps were installed in recent past for ameliorating the condition of the local population and their irrigational needs.

Forest, Flora & Fauna

The district is comparatively rich in forest wealth than Bermo subdivision. The C.D. Blocks which have accountable forest wealth are Nawadih, Peterwar, Kasmar, Gomia and Chandankiyari. Forests are replete with Sal (Sakhua) trees. Other trees found in area are Mango, Sisum, Kendu, Jackfruit, etc.

No wild animal has been reported to be found in the area. Domesticated animals are cow, buffalo, goat, pig etc.

Industry:

District headquarter of Bokaro occupies very important place in industrialization of Jharkhand and country as a whole. During 1965 4th integrated steel plant in the Public Sector with collaboration of Soviet Union was started. At present production of steel is 4 million tones which is likely to go up to 10 million tones annually. Bokaro is thus stated to be India's largest Steel manufacturing Complex, Coal for the steel plant is supplied from different washeries of district i.e. at Dugdha, Kathara, Karagali etc.

In addition, D.V.C. a multipurpose project produces power for industrialization of the district and whole of Jharkhand & West Bengal states. Recently following three Thermal power plants have been established.

i) B.T.P.S : This is the first thermal power plant established by D.V.C. in the year 1953 with initial capacity of 175 MW which was enhanced to 630 MW in the 2nd phase. It has the distinction of being 1st thermal power plant of the country also.

ii) It was established in the year 1964 as the 2nd thermal power plant by D.V.C. with a capacity of 750MW in which four units are functioning.

iii) T.T.P.S. : It is a thermal plant established by Govt. of Bihar. It has been given status of corporation. It's first unit was established in 1994-95 and the 2nd one in 1996-97. Installed capacity is 420MW. At present only one unit is generating.

Transport facilities:

Railway: Bokaro is connected by Train/Rail route also. The Bokaro Steel city is connected to Grand cord line at Gomo Railway station. Important Trains Like Satabdi Express between Bokaro and Howrah, Hatia Patna Express. Alleppy Express and Jharkhand Swarn Jayanti Express between Hatia to Delhi (Bi-weekly) run through this station. For other places trains can be boarded at Dhanbad Railway Station, which is at a distance of only 45 Kms. from Bokaro and grand cord line passing through it.

Road: Bokaro district is connected to Dhanbad, Ranchi, Purulia, Ramgarh, Giridih and Patna. Distance of Bokaro from different places is mentioned below:

	ROAD	Length in Kms.
1.	Ramgarh	80 Kms.
2.	Ranchi (Via Ramgarh)	130 Kms.
3.	Ranchi (Via Jhalda)	165 Kms.
4.	Dhanbad	45 Kms.
5.	Giridih	110 Kms.
6.	Jamshedpur	135 Kms.
7.	Patna (Via Ramgarh)	370 Kms.
8.	Bermo	40 Kms.
9.	Tenughat	45 Kms.
10.	Jainamore	20 Kms.
11.	Kasmar	35 Kms.
12.	Peterwar	35 Kms.
13.	Gomia	60 Kms.

Animal Husbandry

The livestock in this district is of very poor variety. Not much pasturage is available, although there are stretches of jungle. There is no popular response to improve the breed of the livestock, but in and around Bokaro Steel City improved breed of livestock cows and buffaloes can be seen. With the establishment of Sudha Dairy at B.S. City rearing of improved breed of cows and buffaloes has received great impetus.

Trade and Commerce:

The Development of means of communication has a great impact on trade & commerce of the district. There are numerous passenger Buses and carrier trucks running within the district and connecting the district with other parts of the state and the other neighbouring states.

Trade in this district consists mainly of exporting coal, iron, and steel, fireclay, firebricks etc. and of importing of cotton pieces goods, salt, grains and pulses. k-oil, petrol, lime, vegetables, mustard oil, fish, sugar, chilies.

The main retail marketing centers in this district are at B.S. City, Chas, Phusro, Jaridih, Jainamore, Gomia, Bokaro Thermal and Chandrapura.

Electricity and Power:

The district receives most of its power supply from the Bihar State Electricity Board. BTPS, CTPS, and TTPS are centers of generation of thermal electricity run by DVC.

Major social and cultural events, natural and administrative development and significant activities during the decade

The district has witnessed two significant events in its life of 1st decade, namely, creation of district on 1st of April, 1991 and creation of Jharkhand state after houselisting operation and prior to enumeration on 15th November, 2000. With the creation of Jharkhand state the capital of state shifted from Patna to Ranchi. Creation of separate state of Jharkhand, of which district of Bokaro is a part, have subtle but apparent impact on political, cultural, social and economic life of the district.

Non-statutory (Census Town) Town Bokaro Steel City is facing shrinkage of industrial work force due to rationalization of Bokaro Steel Plant. Bokaro Steel City is also constantly experiencing employment and rehabilitation problem of land acquired families. Despite this odds Bokaro Steel City is comparable to other industrial towns in the matter of modernity. In addition to other cultural activities fashion shows are also held in the town. Womens are gradually coming out of their kitchen though they do not have universal approval by the local populace. The Mahila Samiti is devoted to the social service. The Samiti is trying to ameliorate the condition of poor women. Some of the ladies have volunteered for educating the masses along with male volunteers. Catching slogan is chala Padhav Agu Badhav.

(ii) Census concepts

Building: A 'Building' is generally a single structure on the ground. Usually a structure will have four walls and a roof. Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, work sheds, Schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence, office-cum-residence etc. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Pucca houses: Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, Stones (duly packed with lime or cement mortar), G.I/metal/ asbestos sheets, Burnt bricks, Cement bricks, Concrete. Roof may be made of from any one of the following materials, namely, Machine-made tiles, Cement tiles, Burnt bricks, Cement bricks, Stone, Slate, G.I/Metal/Asbestos sheets, Concrete. Such houses are treated as Pucca house.

Kutcha houses: Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, Unburnt bricks, bamboos, mud, grass, reeds, thatch, plastic /polythene, loosed packed stone, etc. Such houses are treated as Kutcha house.

Dwelling Room: A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census house is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical

shaped hut if used for living by any household is also considered as dwelling room. A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census House : A 'census house' is a building or part of a building used or recognized as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both. If a building has a number of Flats or Blocks/Wings, which are independent of one another having separate entrances of their own from the road or a common staircase or a common courtyard leading to a main gate, these are considered as a separate Census house.

Village: The basic unit for rural areas is the revenue village, which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In un surveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural-Urban area: The data in the census are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. The urban area comprises two types of towns viz; Statutory towns and Census towns. In the Census of India 2011, the definition of urban area adopted is as follows:

(a) Statutory Towns : All places with a municipality, corporation, cantonment board or notified town area committee, etc are known as statutory towns.
(b) Census owns: All other places satisfying the following three criteria simultaneously are treated as Census Towns.
i) A minimum population of 5,000;
ii) At least 75 per cent of male working population engaged in non-agricultural pursuits; and
iii) A density of population of at least 400 per sq. km. (1,000 per sq. mile)

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 2001 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account. In addition the above stated towns, urban areas also constitutes of OGs which are the parts of UAs.

Urban Agglomeration: An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together with or without urban outgrowths of such towns. In some cases, railway colonies, university campuses, port areas, military camps etc; may come up near a statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may qualify to be clubbed with the exiting town as their continuous urban spread (i.e., an Out Growth). Each such town together with its outgrowth(s) is treated as an integrated urban area and is designated as an 'urban agglomeration'. For the purpose of delineation of Urban Agglomerations during Census of India 2011, following criteria has been adopted:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town; and

(b) The total population of an Urban Agglomeration (i.e. all the constituents put together) should not be less than 20,000 as per the 2001 Census. In varying local conditions, there were similar other combinations which have been treated as urban agglomerations satisfying the basic condition of contiguity.

Out Growth (OG): The outgrowth is a viable unit such as a village or a hamlet or an enumeration block and clearly identifiable in terms of its boundaries and location. While determining the outgrowth of a town, it has been ensured that it possesses the urban features in terms of infrastructure and amenities such as pucca roads, electricity, taps, drainage system for disposal of waste water etc., educational institutions, post offices, medical facilities, banks etc and physically contiguous with the core town of the UA.

City: Towns with population of 100,000 and above are called cities.
Household: A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen/common cooking. There may be one member households, two member households or multi-member households.

Institutional Household: A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, observation homes, beggars homes, jails, ashrams, old age homes, children homes, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2011, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless household : Households who do not live in buildings or census houses but live in the open or roadside, pavements, in hume pipes, under flyovers and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Caste and Scheduled Tribes:-
The list of SCs and STs applicable in the State/UT is given hereunder:-
Scheduled Castes :

1. Bantar
2. Bauri
3. Bhogta
4. Bhuiya
5. Chamar,Mochi
6. Chaupal
7. Dabgar
8. Dhobi
9. Dom,Dhanger
10. Dusadh,Dhari,Dharhi
11. Ghasi
12. Halalkhor
13. Hari,Mehtar,Bhangi
14. Kanjar
15. Kurariyar
16. Lalbegi
17. Musahar
18. Nat
19. Pan,Swasi
20. Pasi
21. Rajwar
22. Turi

Scheduled Tribes :

1. Asur
2. Baiga
3. Banjara
4. Bathudi
5. Bedia
6. Binjhia
7. Birhor
8. Birjia
9. Chero
10. Chik Baraik
11. Gond
12. Gorait
13. Ho
14. Karmali
15. Kharia
16. Kharwar
17. Khond
18. Kisan
19. Kora
20. Korwa
21. Lohara,Lohra
22. Mahli
23. Mal Paharia
24. Munda
25. Oraon
26. Parhiya
27. Santal
28. Sauria Paharia
29. Savar
30. Bhumij
31. Kawar
32. Kol

Language and Mother tongue: As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person. Mother tongue is the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate: A person aged 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate: Literacy rate of the population is defined as the percentage of literates in the age-group seven years and above. For different age-groups the percentage of literates in that age-group gives the literacy rate.

Educational level: The highest level of education a person has completed.

Work: Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. The main point to note is that the activity should be economically productive. Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker: A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker'.

Marginal worker: A person who worked for 3 months or less but less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal worker'.

Non-worker: A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator: For purposes of the Census, a person is classified as cultivator if he or she is engaged in cultivation of land owned or from government or from private persons or institutions for payment in money, kind or share. Cultivation also includes effective supervision or direction in cultivation. Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the plantation crops like– tea, coffee, rubber, coconut and betel nuts (areca). The workers engaged in Plantation crops are recorded under "other workers".

Agricultural labourer: A person who works on another person's land for wages in cash or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker: Household industry is defined as an industry conducted by one or more members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods. The activity relate to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other worker: A person, who has been engaged in some economic activity during the last year of reference period but not as a cultivator or agricultural labourer or worker in Household Industry. The type of workers that come under this category include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In fact, all those workers other than cultivators or agricultural labourers or household industry workers are 'Other Workers'.

Work participation rate: Percentage of Workers (Main + Marginal) to total population.

Population density: Population density is the number of persons inhabited per square kilometer of the area.

Age: Age is measured in terms of the completed number of years.

Sex Ratio: Number of females per 1,000 males in a population.

(iii) Non-Census Concepts

Improved drinking water :

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water. It may be mentioned that such uniform definition may not be valid across all states.

System of sewerage :

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in these towns.

Type of latrine and Method of disposal of night soil :

There are three prevalent systems of disposal of human wastes, viz. (i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging.

The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns.

Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed.

Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility :

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below :

Crude birth rate(CBR) :

Ratio of the number of live births in a year to the mid year population, normally expressed per 1,000 population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid –year Population}} \times 1{,}000$$

Crude death rate(CDR) :

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1,000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid-year Population}} \times 1{,}000$$

Natural growth rate :

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR) :

Number of live births in a year to female population in any specified age group normally expressed per 1,000 women.

$$ASFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1{,}000$$

€

Age specific marital fertility rate (ASMFR) :

Number of live births in a year to married female population in any specified age group normally expressed per 1,000 married women.

$$ASMFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1{,}000$$

General fertility rate (GFR) :

Number of live births per 1000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1{,}000$$

General marital fertility rate (GMFR) :

Number of live births per 1000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years.}} \times 1{,}000$$

Total fertility rate (TFR):

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = 5 \times \frac{\sum_{15-19}^{45-49} ASFR}{1{,}000}$$

Total marital fertility rate (TMFR) :

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = \frac{5 \times \sum_{15-19}^{45-49} ASMFR}{1,000}$$

Age-specific mortality rate (ASMR) :

Number of deaths in a particular age and sex group per 1,000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age-group}} \times 1,000$$

q1 :

Probability of dying between birth and age1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2 :

Probability of dying between birth and age 2.

q5 :

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR).

Infant mortality rate (IMR) :

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1,000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as :

Neo-natal mortality rate (NMR) :

Number of infants dying within the first month of life (28 days or under) in a year per 1,000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1,000$$

Early neo-natal mortality rate :

$$= \frac{\text{Number of infant deaths of less than 7 days During the year}}{\text{Number of live births during the year}} \times 1,000$$

Late neo-natal mortality rate :

$$= \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1,000$$

Post neo-natal mortality rate (PNMR) :

$$= \frac{\text{Number of deaths of 29 days to less than one year during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Peri-natal mortality rate (PMR) :

Number of still births plus deaths within 1st week of delivery per 1,000 births in a year.

$$\text{PMR} = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1{,}000$$

Still birth rate (SBR) :

$$= \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1{,}000$$

Maternal mortality rate (MMR) :

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 1,00,000 live births in a given year.

$$\text{MMR} = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 1{,}00{,}000$$

Eligible couple (Couples per 1000 population) :

Number of currently married females in the age group15-44 years per 1000 persons of all ages.

Child woman ratio (0-4) :

Number of children in the age group 0-4 years per 1000 women in the age group 15-49 years.

Child woman ratio (5-9) :

Number of children in the age group 5-9 years per 1000 women in the age group 15-49 years.

Migration :

Migration is the third component of population change, the other two being mortality and fertility.

A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth.

Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town.

Certain aspects concerning temporary movement/migration of people has been explained below as these are important components concerning migration :

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother.

A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration :

The migrational movements are of three types (i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration) (b) Migration from one district of state to another district of state (inter district migration), (ii) Migration from one state to another State of the country (inter-state migration), (iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration.The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural-Urban components of migration :

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that. The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic status of urban units: Civic Status of a town/city is determined on the basis of Civic Administrative Authority of the town e.g., Municipal Corporation / Corporation, Municipal Committee / Municipal council, Municipality etc.

Size class of U.A./town:

Size-class of UA/Town is based on the population size of the UA/City/Town. UAs./Towns with 1,00,000 and above population are classified as Class I UAs./towns. These Class I UAs/Towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/Town. These are M7(5,000,000 and above); M6 (2,000,000 to 4,999,999); M5 (1,000,000-1,999,999) M4 (500,000-999,999); M3(300,000-499,999), M2 (200,000-299,999) & M1 (100,000-199,999) towns with 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5000 and 9999 are Class V towns and towns with less than 5000 population are Class VI towns.

Slum area : The Slum Areas (Improvement and Clearance) Act, 1956, which was enacted by the Central Government defined slums as (a) Areas where buildings are in any respect unfit for human habitation; or (b) are by reasons of dilapidation, overcrowding, faulty arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city : The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cutoff point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities and the same criteria of population has been adopted in 2011 census.

Note on Religion, Mother Tongue and Schedule Castes/Schedule Tribes

Note on Religion data of Bokaro district during Census-2011:-

The total population of the Bokaro district during 2011 Census is **2062330**
in which Hindu-**1636460**, Muslim-**241451**, Christan-**13730**, Sikh-**4174**, Buddhist-**1890**,
Jain-**2045**, Other religion-**160524** and religion not stated-**2056** are consisted.

Note on Mother Tongue of earlier Census :-

Spoken language, which is medium of conversation with the mother of children is called his mother tongue. Mother tongue is an important attribute of population. The Census of India has been the richest source of language data collected and published during the successive decennial censuses over a century. During 2001 census, as in the previous censuses, the mother tongue as returned by each individual was collected. In Bokaro District three most populous Mother Tongue are Khortha (730343), Hindi(303151) and Santali (191629).

Note on Schedule Castes/Schedule Tribes of Census-2011 :-

SC

The population of the Schedule Castes in gathers distirict of Bokaro was 152943 according to 2011 Census. Numerically the five most prominent SCs in the district were (i) Chamar/Mochi (60552) (ii) Rajwar (54927) (iii) Bauri (45774) (iv) Turi(27917) and (v) Dhobi (23502).while Nat, Bantar,Halakhor, Kurariar and Kanjar schedule cast having very less population in the Bokaro district i.e.only 38,37,24,23 and 12 respectively.

ST

The population of the Schedule Tribes in the district of Bokaro during 2011 Census was 255626. Numerically the five important STs were namely (i) Santal(1,79,241) (ii) Munda,Patar(18231) (iii) Oraon Dhangar (11299) (iv) Karmali (10808) and (v)Mahli(8265) while Banjara, Korwa,Baiga,Khond and Birjia cast having very less population i.e. 17,16,15,8 and 3 respectively.

(iv) 2011 Census Findings–Population and its Distribution

The district of Bokaro is the one of the district of Jharkhand State. The present Bokaro district with a population of **2062330** according to 2011 Census, is divided into 9 Community Development Blocks comprising 635 villages (inhabited- 611, uninhabited - 15) and 27 town (statutory – 2 and 25 CT). With 8.83 percent of the total population of the State comprised within the district, Bokaro is a big sized district and ranks 5th in the state in order of population. The population of males and females are 1072807 and 989523 with density of population in 2011 is 715 (per sq. km.) of the district. Proportion of rural and urban population: 2011 of Bokaro district are 52.3 (rural) and 47.7(urban).

Table 1 to 45 presented below are based on Primary Census Abstract, Village Directory, Town Directory and Houses and Households Amenities data of 2011 Census which give insight into the colour and texture of the population in the district.

BRIEF ANALYSIS OF TABLE 1 TO 35

* Newly created sub-district.

Infinite.

Table-1 Shows rise in the population of this district during 2011-2011 decade has been of the order of 16.01 percent. The rural populations in the district have increased by 10.86 percent while the urban population growth over the decade has been as much as 22.24 percent. Rural-urban migration is important factor, which always leads to rapid expansion of the urban unit. Among the C.D.Blocks Jaridih has shown the highest increase in population over the decade with 18.90 percent. The next highest increase in population is observed in Chandankiyari i.e. 18.76 and in Kasmar i.e. 18.04.

Table 2: Number and percentage of inhabited villages in specified population size ranges with the related population, 2011 (Rural)

TABLE-2

It may be observed in the table-2 that the maximum number of villages in the district lie in the population range of 1000-1999 accounting for 29 percent of the total inhabited villages closely followed by villages in the population 2000-4999 accounting for 26 percent of the total inhabited villages. The villages in the population range of 500-999 constitute 22 percent of the total inhabited villages. There are 27 villages in the population range of 5000-9999 accounting for 4 percent of the total inhabited villages . There are only 3 villages which lies in the population range of population 10000 and above. .

1991	922	950	826	865	919	802
2001	941	962	870	894	927	856
2011	949	961	910	922	944	899

Note:- Sex ratio has been defined here as the number of females per 1000 males.

TABLE-4

Table-4 Shows that sex ratio for the rural areas of Bokaro district is comparatively high as compared to the urban areas of the state during 2001 and 2011 census. However, on the other hand the sex ratio for the rural areas of the state is found to be comparatively higher as compared to the rural areas of Bokaro district during 2001 and 2011 census. It has already been discussed that the district of Bokaro was created before 2001 census. It is found that in case of sex ratio in the total population in the district. It is less than that of the sex ratio of the state of Jharkhand in 2011Census.

Table 5: Sex ratio by Sub-district, 2011

Sr.No.	Name of Sub-district	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
1	02588-Nawadih	968	969	943
2	02589-Chandrapura	919	928	913

Sex ratio District (Rural):944

TABLE-7

It is observed in the Table -7 that the maximum proportion of villages in Bokaro district lies in the favourable sex ratio of 900-949 and these villages account for 32.57 percent of the total inhabited villages and pop ratio is 45.04 percent. The minimum proportion of villages in Bokaro district lies in the sex ratio less than 700-749 in which 0 villags and population lies 0 percent.

TABLE-12

There is one urban agglomeration in Bokaro district i.e. Phusro UA. It is apparent from the above table that there are 2 Statutory Towns in Bokaro district i.e.Chas(Nagar Parishad) and Phusro(NAC) and 25 Census Towns . The sex ratio in the age group 0-6 of Chas (Nagar Parishad) and Phusro(NAC) are 897and 888 respectively.

TABLE-20 &21

Table 20 and 21 show that among the C.D.Blocks in the district Chandrapura C.D.Block has the highest proportion of literate population (71.39%) and the lowest proportion Bermo C.D.Block (53.23%). Male literates out number female literates in the entire C.D.Blocks of Bokaro district is higher than of Female literacy rate. Chandrapurae C.D.Block has the highest female Literacy rate with 57.75% and the lowest proportion of female literacy rate is 32.58 of C.D.Block Bermo .

Table 22: Distribution of villages by literacy rate range, 2011

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Population	Percentage distribution of population

TABLE-24

Table 24 show that among the C.D.Blocks in the district Chandankiyari C.D.Block has the highest proportion of literacy rate of SC population (65.65%) . Among the C.D.Blocks in the district Bermo C.D.Block has the lowest proportion of literacy rate of SC population (40.79%) and the literacy rate schedule cast of Bokaro(total) district is 57.14. SC Male literates out number female literates in the entire C.D.Blocks of Bokaro district is higher than of Female literacy rate. The gap of literacy rate of SC population of the Bokaro district is 26.61 percent.

Table 25: Distribution of villages by literacy rate range for scheduled castes population (rural), 2011

Range of literacy rate for villages	Number of inhabited villages having Scheduled castes	Percentage distribution of villages	Scheduled castes population	Percentage distribution of population

TABLE-30&31

The work participation rate for total workers is defined as the percentage of total workers to total population. In similar way, it is defined for main and marginal workers, table 30 and 31 shows that the work participation rate (WPR) in the Bokaro district is 18.44 percent as main workers and 14.79 percent as marginal workers and proportion of non-workers in the district is 66.77 percent.Among the main workers male work participation rate in the district is 30.56 percent while that of females is only 5.30 percent as per 2011 census.

The proportion of main workers is highest (20.86%) in Peterwar C.D.Block and the lowest 5.78% in Bermo C.D.Block. Out of 9 C.D.Blocks WPR of 6 C.D.Blocks are above the district average. The proportion of marginal workers is the highest (34.56%) in Bermo C.D.Block and lowest is (16.10%) in Chas C.D.Block. The proportion of total workers is the highest (44.07%) Kasmar C.D.Bock and the lowest (31.74%) in Chas C.D.Block.

Table 32: Number and percentage of main workers, marginal workers, and non-workers by sex in towns, 2011

TABLE-32

There are only 2 statutory towns and 25 CT in the district i.e. Chas (Nagar Parishad) and Phusro(NAC) and 25 Census Towns. The work participation rate for total workers is defined as the percentage of total workers to total population. In a similar way, it is defined for main and marginal workers. For Chas (Nagar Parishad) and Phusro(NAC)) the work participation rate (WPR) recorded are 26.46 and 26.39 percent respectively and the main worker rate in Chas (Nagar Parishad) and Phusro(NAC) are 23.42 and 21.57 respectively.

TABLE-33

From the above table, the relative importance of the main spheres of economic activity may be gauged from the pattern of distribution of main workers according to the broad four categories classification namely, cultivators, agricultural laborers household industry workers and other workers. The economic activity in the rural and urban areas in the district is primarily dependent on agricultural which is supported by the fact the cultivators (20.07%) and agricultural laborers (18.44%) together constitutes 38.51 percent of the total workers of the district. The agriculture sector has observed less than 50 % of the total main workers. The proportion of cultivator's varies between 30.01 percent for Peterwar Sub.District to 3.41 percent for Bermo Sub.District. Proportion of agricultural labourers varies between 42.08 percent in Kasmar Sub.District to 1.83 percent in Bermo Sub.District. The proportion of Household industry workers is only 3.16 percent of the total workers of the district. A proportion household industry worker varies between 4.16 percent in Jaridih Sub.District to

1.91 percent in Bermo Sub.District. The proportion of other workers is 58.33 percent of the total workers of the district.

TABLE-34

From the above table, the relative importance of the main spheres of economic activity may be gauged from the pattern of distribution of main workers according to the broad four categories classification namely, cultivators, agricultural laborers household industry workers and other workers. The economic activity in the rural and urban areas in the district is primarily dependent on agricultural which is supported by the fact the cultivators (30.96%) and agricultural laborers (28.51%) together constitutes 59.47 percent of the total workers of the district. The agriculture sector has observed near about 3/4th % of the total main workers. The proportion of cultivator's varies between 47.38 percent for Gumia C.D.Block to 21.83 percent for Chas C.D.Block. Proportion of agricultural labourers varies between 42.08 percent in Kasmar C.D.Block to 7.28 percent in Bermo C.D.Block. The proportion of Household industry workers is only 3.22 percent of the total workers of the district. A proportion household industry worker varies between 4.72 percent in Jaridih C.D.Block to 0.53 percent in Bermo C.D.Block. The proportion of other workers is 37.24 percent of the total workers of the district.

TABLE-35

There are only 2 statutory towns and 25 CT in the district i.e. Chas (Nagar Parishad) and Phusro(NAC) and 25 Census Towns. From the above table, the relative importance of the main spheres of economic activity may be gauged from the pattern of distribution of main workers according to the broad four fold classification namely cultivators, agricultural laborers house hold industry workers and other economic activities. The total cultivators constitute 3.57 percent and agricultural labourers constitutes 3.20 percent of the total workers of urban areas. The proportions of male and female cultivators are 1.97 and 3.47 percent respectively. The proportion of male and female agricultural laborers are 2.63 and 8.79 percent respectively. The Household industry workers constitute 2.96 percent of the total workers of urban areas the proportion of household industry workers among male is 7.14 percent and that of females is 14.94 percent. Other workers constitute 90.27percent of the total workers of urban areas. The proportion of male and female other workers are 86.10 and 58.43 percent respectively.

Note:- Percentages are given in brackets.

Post office includes post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

@ Bank includes Commercial Bank and Cooperative Bank.

* Telephone includes Telephone,PCO and Mobile.

TABLE-36

The above tables give the distribution of villages according to the availability of different amenities in the district.

EDUCATION AMENITY

There are as many as 579 villages accounting for 94.76 percent of the total number of inhabited villages (611) in the district where education facility is available

MEDICAL AMENITY

The availability of medical amenity in the villages is quite lower only 37.32 percent villages i.e. 228.

IMPROVED DRINKING WATER

There are total 610 inhabited villages. In all inhabited villages having drinking water facilities i.e. 99.84% inhabited village availing drinking water facilities.

POST OFFICE

Postal facilities also available only in 124 villages out of 611 inhabited villages (20.29%) in the district.

TELEPHONE

The availability of Telephone/PCO/Mobile facility in the villages 58.1 percent. Total villages(355) have it.

TRANSPORT COMMUNICATION

Transport communication facility is available only in 169 villages out of 611 inhabited villages (27.66%) in the district.

BANK

Banking facility is available only in 45 villages out of 611 inhabited villages (7.36%) in the district.

Agricultural credit societies are available only in 17 villages out of 611 inhabited villages (2.78%) in the district.

APPROACH BY PUCCA ROAD

This facility is available in 608 villages (99.51%) in the district.

POWER SUPPLY

Electrified villages in the district constitute as low as 69.72 percent of the total number of inhabited villages (426).

Table 37: Number and percentage of rural population served by different amenities, 2011

Note:- Percentages are given in brackets.

Post office includes post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

@ Bank includes Commercial Bank and Cooperative Bank.

* Telephone includes Telephone,PCO and Mobile.

TABLE-37

It would be seen from table no 37 that educational facility is available to 99.12 percent of the rural population of the district. The proportion varies between the maximum of 100 percent in Petarwar C.D.Block and the minimum of 98.54 percent in Gumia C.D.Block.. This may be attributed to the fact that villages that possess educational facility usually contain larger population as compared to those villages which have do not have this facility at all. In the case of medical facility, also it can be seen that the proportion of rural population served by the amenity is of the order of 47. 8 percent, which is more than the proportion of villages served by medical facility in the district. In the case of improved drinking water facility also it may be observed that proportion of rural population served by the amenity is of the order of 100 percent, which is more than the proportion of villages served by this facility in the district.

Similar trend can be observed in respect of other amenities also both in the district as also in its varies C.D.Blocks.

Table 38: Distribution of villages not having certain amenities, arranged by distance ranges from the places where these are available, 2011

Village not having the amenity of	Distance range of place from the villages where the amenity is available			
	Less than 5 kilometres	5-10 kilometres	10+ kilometres	Total (Col. 2-4)
1	2	3	4	5
1. Education:-				
(a) Primary school	31	7	0	38
(b) Middle school	225	51	9	285

3. Post office-	302	154	31	487
4. Telephone	74	182	0	256
5. Bus service	118	216	148	482
6. Bank:-				
(a) Commercial Bank	73	198	317	588
(b) Cooprative bank	85	180	318	583
7. Agricultural credit societies	61	169	364	594

Degree college includes Art,Engineering and Medicine

Hospital includes Allopathic & Alternative Medicine

Post office includes post office, telegraph office and post & telegraph office

Telephone includes Telephone,PCO and mobiles

Bus includes private and public

Table 38:

As regards educational facility it would be seen that there are 38 villages in the district which do not have any primary school but the facility is available at places situated within 5 kms for 31 villages and only 7 villages within the range of 5-10 kms. There are as many 285 villages in the district which do not have middle school but the facility is available at places situated with in 5 kms for 225 villages, 81 villages range in 5-10 kms and 9 villages within the range of 10+ kms. It is interesting to observed that 608 inhabited villages of the district are deprived inhabited villages of the district are deprived of college but the facility is available at places situated within 5 kms for 29 villages. 62 villages within the range of 5-10 kms and 517 villages within the range of 10+kms.

There are 592 villages in the district which are without the facility of hospital and as many as 348 villages enjoy this facility ate a distance range of 10+ kms. The number of villages enjoying this facility at a distance range of 5-10kms is 178 where as the lowest is available at a distance of less than 5kms for 66 villages. There are 590 villages in the district, which do not have primary health canter.

Similar trend can be observed in respect of other amenities in the district.

Table 39: Distribution of villages according to the distance from the nearest statutory town and availability of different amenities, 2011

Distance Range from the nearest Statutory Town (In Kilometres)	Number\ Percentage	Number of Inhabited Villages in Each Range	Type of amenity available

Note:-
* Education includes all education facalities.
^ Medical includes all medical facalities.
# Post office includes post office, telegraph office and Post and telegraph office.
$ Transport communication includes bus service, rail facility and navigable waterways.
@ Bank includes Commercial Bank and Cooperative Bank.

TABLE-39

It would be appear from the above table that maximum number of inhabited villages (399) lies in the distance rage of 16-50 km. from the nearest statutory town. This is followed by villages in the distance range of 5-15 kms from the nearest statutory towns with 133 villages. 77 villages are found to be in the distance range of 51+ km. only 2 villages lies in the range of less than 5 km. None of the villages is found to be in the distance range of unspecified km.

Interestingly, it can be observed from the table that the proportion of villages having educational facility is 100 percent for those situated within 5 km from the nearest town and decreased to 95.49 percent in the distance range of 5-15kms. There after it again increases to 95.99 percent in the distance range of 16-50 km. From the nearest town and it again very lowest percent decreases to 87.01 percent in the distances range of 51+ km from the nearest town. In the case of other amenities (except approach by pucca road) also more are less the trend is same.

Table 40: Distribution of villages according to population range and amenities available, 2011

* Telephone includes Telephone,PCO and Mobile.

TABLE-40

It can be seen from the table no 40 that the maximum number of villages i.e.178 in the district fall in the population range of 1000-1999 followed by 159 villages having a population range of 2000-4999. 137 villages having a population range of 500-999. 107 villages in having a population range of 1-499. 27 villages in having a population range of 5000-9999 and the lowest number of village is observed in the population range of 10000+ being only 3 in the case of other amenities also more or less the trend is same. The proportion of villages having different amenities varies in direct relation to their population range. Generally the maximum percentage of villages having different amenities have a population range of 2000-4999 and 5000-9999 which further corroborates the fact that more for are generally available in larger villages than in smaller ones.

Table 41: Distribution of villages according to land use, 2011

Sr.No.	Name of CD Block	Number of inhabited villages	Total area (in Hectares)	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1	0094-Nawadih	67	31418.44	35.17	5.73
2	0095-Chandrapura	20	6850.86	56.84	32.20
3	0096-Bermo	3	1263.00	39.45	3.05
4	0097-Gumia	107	54626.51	14.03	7.15
5	0098-Peterwar	62	29951.17	21.51	24.93
6	0099-Kasmar	66	19445.12	25.97	10.80
7	0100-Jaridih	38	18348.37	11.30	12.38
8	0101-Chas	126	38612.96	37.14	16.22
9	0102-Chandankiyari	122	36157.06	42.63	29.42
	Total	**611**	**236673.49**	**28.07**	**17.64**

Note:- Culativable area= irrigated area + unirrigated area

TABLE-41

Table 41 gives the percentage of cultivable area as also the proportion of irrigated area to total cultivable area in the district and its various C. D.Blocks.

It would be seen from the table that 28.07 percent of the total cultivable area in the district and its various C.D.Blocks and of this only 17.64 percent; area is found to be irrigated. Among the C.D.Blocks the highest percentage of cultivator's area is found in Chandrapura C.D.Block with 56.84 percent and the lowest cultivable are is found in Jaridih C.D.Blck, which is 11.30 percent. The highest proportion of irrigated area (32.20%) to total cultivable area is founding in Chandrapura C.D. Block and the least proportion of irrigated area is found in Bermo C.D.Block with 3.05 percent, which indicates that the villages in this block that indicates that the villages in this book are deprived of required irrigated facilities.

It Presents the most important commodities manufactured in the town it would be seen from above table that three item viz Coal,Electric Item,Furniture and Oil seeds etc.

BRIEF DESCRIPTION OF PLACES OF REGLIGIOUS, HISTORICAL AND ARCHAEOLOGICAL IMPORTANCE IN VILLAGES AND PLACES OF TOURIST INTEREST IN THE TOWNS OF THE DISTRICT.

1. **Babudhi**: The village is situated in Chas development Block. It is noted for a 75' high tower with 6' walls and diameter of 10'. It is said to be very old.

2. **Bansa:** The village which is situated in Chas Block has a satistan with stone walls believed to be over 200 years.

3. **Chandrapura**: It is census town which is famous for Chandrapura Thermal Power Station.

4. **Tenughat:** It is headquarter of Bermo Subdivision and is famous for Tenughat Dam and Tenughat Thermal Power Station.

5. **Bokaro Steel City**: It is famous for Bokaro Steel Plant. There are several places like city Part, Nehru Zoological Garden, Ram Mandir which attract a large no. of tourists.

6. Temple of Dhori Mata at Jarangdih: This temple is situated at Jarangdih in Bermo Block. Every year in the month of October it is visited by Christians from all over India, but Hindus, Sikhs and Muslims equally pay regard to this temple. This temple is an unique example of unity in diversity and India's cultural integrity.

7. **Kali Mandir**: This Kali Mandir is located at Sector II of Bokaro Steel City. Though it is newly built temple but it has great attraction for Maithil families residing there.

Village and Town Directory

Brief note on Village and Town Directory

Village and Town Directory - column heading-wise explanation and coverage of data

The District Census Handbooks are the only publications which furnish information down to the village level in case of rural areas and by the level of towns/wards (circles) in case of urban areas. This facilitates research scholars and academicians to analyses data upto the lowest administrative unit. It is of vital importance for the planners also since it offers micro-level data and thus enable them to identify the areas undeveloped in terms of infrastructure and channelise efforts and inputs accordingly so that optimum utilization of the resources could be made.

The present series of the DCHB in 2011 Census have been made more informative and exhaustive in terms of coverage and content. The content of Village Directory has been broadened by including a number of new amenities in addition to those of 2001. These newly added amenities are: Pre-Primary School, Engineering College, Medical College, Management Institute, Polytechnic, Non-formal Training Centre, Special School for Disabled, Community Health Centre, Veterinary Hospital, Mobile Health Clinic, Medical Practitioner with MBBS Degree, Medical Practitioner with no degree, Traditional Practitioner and faith Healer, Medicine Shop, Community Toilet, Rural Sanitary Mart or Sanitary Hardware Outlet in the Village, Community Bio- gas, Sub Post Office, Village Pin Code, Public Call Office, Mobile Phone Coverage, Internet Cafes/ Common Service Centre, Private Courier Facility, Auto/Modified Autos, Taxis and Vans, Tractors, Cycle-pulled Rickshaws, Carts driven by Animals, Village connected to National Highway, State Highway, Major District Road, and Other District Road, Availability of Water Bounded Macadam Roads in Village, ATM, Self-Help Group, Public Distribution System(PDS) Shop, Mandis/Regular Market, Weekly Haat, Agricultural Marketing Society, Nutritional Centers (ICDS), Anganwadi Centre, ASHA (Accredited Social Health Activist), Sports Field, Public Library, Public Reading Room, Assembly Polling station, Birth & Death Registration Office. In the Town Directory, seven Statements containing the details and the data of each Town have been presented viz.; (i)-Status and Growth History of Towns,(ii)- Physical Aspects and Location of Towns, (iii)-Civic and other Amenities, (iv)-Medical Facilities, (v)-Educational, Recreational & Cultural Facilities, (vi)- Industry & Banking, and (vii)- Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 Census as presented in earlier Census. The various basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements.

Village and Town Directories included in the District Census Handbook give the list of villages and towns, their areas, population and amenities.

Village Directory 2011 Census:-

The Village Directory is being compiled for both inhabited and un-inhabited villages. In the village directory both private and government facilities/institutions have been given. In case of un-inhabited /depopulated villages, the location code number, name and area of the village is being given universally in Village Directory and Village PCA. The columns relating to the amenities and land use pattern, etc. being left blank and it will be noted against the name of the village that it is un-inhabited/depopulated. The Appendices to Village Directory and Inset Tables based on village Directory data are also prepared for inhabited villages.

In the Village Directory format for 2011 Census there are 121 columns and the details thereon are as follows:

Columns 1: Serial Number**: -** Self explanatory. All the villages within the CD block are presented serially in the ascending order of their location code number.

Columns 2: Name of village**: -** Self explanatory. The name of the villages are shown against this column. This also includes the forest and uninhabited villages.

Columns 3: Location Code Number of village. The location code number of the villages are shown against this column.

Columns 4: Area of the Village: - The area of the villages has been given in hectares.

Column 5: Total Population: - The total population of the village as per 2011 Census has been given against this column.

Column6: Number of Households: - The number of households as per 2011 Census have been given in this column.

Amenities: - The availability of different infrastructural amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, recreation and cultural facilities, communication, power, etc. in each village have been given in the Village Directory. Wherever the amenities are not available in the village, the distance range code viz; 'a' for <5 Kms, 'b' for 5-10 Kms and 'c' for 10+ Kms of the nearest where facility is available is given. Column wise details are given below:

Columns No. 7 – 20 Educational Facilities: - All the different educational facilities available in the village have been given under these columns. Nursery/LKG//UKG classes are included in Pre-Primary Schools, Classes up to class V included in Primary School; Classes from VI to VIII are included in the Middle school. Classes from IX and X included in Secondary School. Classes from XI and XII are included in Senior Secondary School. In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively. The

Information on the entire educational institutes is given under these columns.

Columns No. 21 to 38 - Medical Facilities: - All the different medical facilities available in the village have been given under these columns.

Columns No. 39 to 46 -Drinking Water: - The information on availability of various types of the drinking water facility within the village has been given under these columns.

Columns No. 47 to 50 – Availability of Toilet and others:- The information on availability of toilet and Bio-Gas etc. available in the village has been given under these columns.

Columns No. 51 to 67 Communication (Post & Telegraph and transport):- The information on communication and Post Office, Sub-Post Office, & Telegraph Office, Village PIN Code number, Phone-Landlines, Mobile Phone, Private Courier Facility, Internet Café, etc; available in the village has been given under these columns. The information on all various transport facilities whether public/private transport like Bus, Railway Station, or Navigable waterways, Taxi , Van, Tractors etc. available in the village has also been given under these columns.

Columns No.68 to 79 – Village connected to High ways, Village Roads, Banks and Credit Societies: - The information on all roads connected to village has been given under these columns. These include

National Highway, State Highway, District Roads and other district roads connected to the village, Pucca roads, Kutchcha Roads, Water Bounded Macadam Roads, Navigable Water Ways and Foot Paths has been given under these columns. Further, the information on availability of banks, ATM and Agricultural Credit societies in the village has been given under these columns.

Column No. 80 to 96 Miscellaneous Facilities: - The information on various miscellaneous facilities available in the village has been given under these columns. These includes Self -Help Group, Public Distribution Shop (PDS), Mandi /Regular Market, Weekly Haat, Agricultural Marketing Society, Nutrition Centre(ICDS),Anganwadi Centre, ASHA, Community Centre, Sports Fields, Sports Club/Recreation Centre, Cinema/Video Halls, Public Library, Public Reading Room, News Paper Supply, Assembly Polling Station, Birth and Death Registration Office.

Columns No. 97 to 100 – Electricity: - Availability of Power Supply in the village, whatever may be the form of its use has been given in these columns. These include Electricity for Domestic Use, Electricity for Agriculture Use Electricity for Commercial Use, and Electricity for all purpose Domestic Uses.

Column No. 101 and 102 -Nearest Town: - The name of the nearest town along with the distance range code has been in these columns.

Land use and Irrigation: - The land use pattern in the Village Directory conform to the pattern of classification of land use as recommended by the Ministry of Agriculture, Government of India. The Ministry has recommended the maintenance of records of land use pattern under the following 9 categories.

(i)-Column No. 103 -Forests:-This includes all lands classed as forest under any legal enactment dealing with forests or administered as forests, whether state-owned or private, and whether wooded or maintained as potential forest land. The area of crops raised in the forest and grazing lands or areas open for grazing within the forests remain included under the forest area.

(ii)-Column No. 104- Area under non-agricultural use:-This includes all lands occupied by buildings, roads and railways or under water, e.g. rivers and canals and other lands put to uses other than agriculture.

(iii)-Columns No. 105- Barren and un-culturable land:-This includes all barren and unculturable land like mountains, deserts, etc. Land which cannot be brought under cultivation except at an exorbitant cost should be classed as unculturable whether such land is in isolated blocks or within cultivated holdings.

(iv)-Column No. 106- Permanent Pastures and other Grazing Lands:-This includes all grazing lands whether they are permanent pastures and meadows or not. Village common grazing land is included under this head.

(v)-Column No. 107- Land under Miscellaneous Tree Crops, etc.:- This includes all cultivable land which is not included in 'Net area sown' but is put to some agricultural uses. Lands under Causing trees, thatching grasses, bamboo bushes and other groves for fuel, etc. which are not included under 'Orchards' are classed under this category.

(vi)-Column No. 108- Culturable Waste Land: - This includes lands available for cultivation, whether not taken up for cultivation or taken up for cultivation once but not cultivated during the current year and the last five years or more in succession for one reason or other. Such lands may be either fallow or covered with shrubs and jungles which are not put to any use. They may be assessed or unassessed and may lie in isolated blocks or within

cultivated holdings. Land once cultivated but not cultivated for five years in succession is also included in this category at the end of the five years.

(vii)-Column No. 109- Fallow Lands other than Current Fallows: - This includes all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than five years.

(viii)-Column No. 110- Current Fallows: - This represents cropped area, which is kept fallow during the current year. For example, if any seeding area is not cropped against the same year it may be treated as current fallow.

(ix)-Column No. 111- Net Area Sown: - This represents the total area sown with crops and orchards. Area sown more than once; in the same year is counted only once.
Column No. 112- Total Irrigated Land Area: - It includes all land which is cultivable and irrigated by any source of irrigation. The total irrigated area of the village has been given under this column.

Column No. 113- Total Un-Irrigated land Area: - Un-Irrigated area includes all land which is cultivable but not irrigated by any source of irrigation. The total un-irrigated land area of the village has been given under this column.

Column No. 114 to 118 Area irrigated by source: - The area irrigated by various source of irrigation in the village have been given under these columns. The different source of irrigation facilities available in the village are as follows:

(i)-Canals(C)-Govt. or Pvt., (ii)-Wells/Tube-wells (W/TW), (iii)-Tanks/Lake(T/L), (iv)-Waterfall,(WF) and (v)-Others(O).
Columns No.119 to 121-Three most important commodities manufactured: - The names of three most important commodities manufactured in the village are indicated in this column.
C.D.Block level totals of the Village Directory:-

At the end of entries for the Village Directory of each C.D. Block, the totals of different columns are being given wherever possible. However, in case of some of the columns, it may not be possible to work out the CD Block level totals, in such cases the particular of relevant columns are being left blank against C.D.Block level.

Appendices to Village Directory: - The Village Directory also includes the following appendices:

Appendix –I: Summary showing total number of villages having Educational, Medical and other amenities in villages – C.D. Block level.

Appendix I A: Villages by number of Primary Schools.

Appendix I B: Villages by Primary, Middle and Secondary Schools.

Appendix I C: Villages with different sources of drinking water facilities available.

Appendix II: Villages with 5,000 and above population which do not have one or more amenities available.

Appendix -III: Land utilization data in respect of Census towns.

Appendix -IV: C.D. Block wise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix -V: Summary showing number of Villages not having Scheduled Caste population.

Appendix -VI: Summary showing number of Villages not having Scheduled Tribe population.

Appendix -VII A: List of villages according to the proportion of the Scheduled Castes to the total population by ranges.

Appendix- VII B: List of villages according to the proportion of the Scheduled Tribes to the total population by ranges.

Appendix -VIII: Number of villages under each Gram Panchayat (C.D. block wise).

Town Directory

Note explaining the abbreviations used in Town Directory 2011 Census:-

Statement I :- Status and Growth History:

Column 1 – Serial Number:- Self explanatory

Column 2:- Class, Name and civic status of town:- The Class is presented according to population of the towns in 2011 Census as follows:

Population	**Class**	**Population**	**Class**
100,000 and above	I	10,000 – 19,999	IV
50,000 – 99,999	II	5,000 – 9,999	V
20,000 – 49,999	III	Below - 5,000	VI

The following abbreviations are used to denote the Civic Status of the town.

Civic Status	**Codes**	**Civic Status**	**Codes**
i-Municipal Corporation	M.Corp.	xii – Notified Town Area	NTA
ii-Municipal Committee	MC	xiii – Industrial Notified Area	INA
iii-Municipal Council	M Cl	xiv – Industrial Township	ITS
iv-City Municipal Council	CMC	xv – Township	TS
v-Town Municipal Council	TMC	xvi – Town Panchayat	TP
vi- Municipal Board	MB	xvii – Nagar Panchayat	NP
Vii –Municipality	M	xviii – Town Committee/ Town Area Committee	TC
viii- Cantonment Board/Cantonment	CB	xix – Small Town Committee	ST
ix- Notified Area	NA	xx – Estate Office	EO
x –Notified Town	NT	xxi –Gram Panchayat	GP

xi - Notified Area Committee/ Notified Area Council	NAC	xxii – Census Town	CT

Column 3 - 25: - These columns are self explanatory

Statement II: - Physical Aspects and Location of town, 2009.

Column 1 - 2 Serial number and Name of town: - Self explanatory

Columns 3 to 5 - Physical Aspects:-In these columns the Rainfall and Maximum and Minimum Temperature of the town is recorded.

Columns 6 to 12:- Name and road distance of the town (in kms.) from the State headquarters, District headquarters, Sub-divisional/Taluk/Tahsil/ Police station/Development Block/Island HQ., Nearest city with population of one lakh and more, Nearest city with population of five lakh and more, Railway station and Bus route is recorded in these columns respectively. If
the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Statement III – Civic and other Amenities, 2009:-

Column 1 - 2 Serial number and Name of town: - Self explanatory

Column 3 – Road length (in km.):- The information about the road length (in km.) within the limit of the town is recorded in this column.

Columns 4 to 7- System of drainage: - The system of drainage available in the town is indicated in these columns by the following codes:

System of drainage	Codes
Open drains	OD
Closed drains	CD
Both drains	BD

Columns 8 to 11-Number of latrines: - The number of various types of latrines available in the town is indicated in these columns.

Columns No. 12 & 13 – Protected water supply: - The information on source of water supply and system of water storage with capacity available in the town are given in these columns in the following codes:

Column 12 (Source of water supply):-

(i)	Tap water	T
(ii)	Tube-well water	TW

(iii)	Tank Water	TK
(iv)	Well water	W

Column 13 (System of water storage):-

(i)	Over Head Tank	OHT
(ii)	Service Reservoir	SR
(iii)	River Infiltration Gallery	RIG
(iv)	Bore Well Pumping System	BWP
(v)	Pressure Tank	PT

The information on 2 major source of water supply is given in column 12 and the system of water storage with capacity against each in kilo-litres (in bracket) is presented in column 13.

Columns 14 Fire Fighting Service: - In case the fire fighting service is available in the referent town, `yes' is recorded. If the facility is not available within the town, the name of the nearest place having this facility with its distance from the referent town has been recorded.

Columns 15 to 19- Electrification (Number of connections):-Different types of electric connections have been shown in these columns, i.e., Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement IV: Medical Facilities, 2009:-

Columns 1 - 2 Serial number and Name of town: - Self explanatory

Columns 3 to 13 :- The number of various medical institutions such as Hospitals, Dispensaries, Health Center, Family Welfare Center, Maternity and Child Welfare Center, Maternity Homes, T.B. Hospital/clinic, Nursing Homes, Charitable Hospital/Nursing Home, Mobile Health Clinic and Others as available in the town, are indicated in these columns (along with number of beds in brackets).

If a medical facility is not available in the town, the name of the nearest place and its distance in kilometers from the town where the facility is available is mentioned.

Column 14 - Veterinary Hospital:-The Number of Veterinary Hospitals available in the town is given in this column.

Column 15 - Medicine Shop:-The number of Medicine shops available in the town is given in this column.

Statement V: Educational, Recreational and Cultural Facilities, 2009:-

Columns 1 - 2 Serial number and Name of town: - Self explanatory

Columns 3 to 15 Educational Facilities:- The information on number of Primary school, Middle school, Secondary school, Senior Secondary school, Arts/Science/ Commerce colleges (of degree level and above), Medical colleges, Engineering colleges, Management Institute/Colleges, Polytechnics, Recognized Shorthand, Typewriting and vocational training Institutions, Non-formal Education Center (Sarva Shiksha Abhiyan Center), Special School for disabled and Others available in the town, are indicated in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometers from the town where the facility is available is mentioned.

Columns 16 to 23 – Number of Social, Recreational and Culture Facilities :- The information on No. of Home Orphanage, Working women's hostels (with No. of seats in bracket), No. of Old Age Home, Stadium, Cinema Theatre, Auditorium/Community halls, Public libraries and Reading rooms available in the town are given under these column.

Statement VI: Industry and Banking 2009:-

Columns 1 - 2 Serial number and Name of town: - Self explanatory

Columns 3 to 5 - Names of three most important commodities manufactured:- The names of three most important commodities manufactured in the town are given under these columns.

Columns 6 to 8 - Number of banks: - The number of banks available in the referent town both Commercial and Co-operative banks are recorded against these columns.

Columns 9 & 10 – Number of Agricultural and Non Agricultural Credit Societies: - The number of Agricultural and Non Agricultural Credit Societies available in the referent town are given in these columns.

Statement VII: Civic and other Amenities in Slums, 2009:-

This statement VII provides information on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like Municipality, Municipal Corporation, Town area committee etc.

List of villages merged in towns and outgrowths at 2011 Census.
